

## Miscellaneous Requirements and Pawlicies

Bring a copy or document that can be copied of your pets current immunization records. Pup North requires rabies, and distemper combos. We recommend Bordetella but, we allow that to be a decision that you make with your vet. A clear fecal exam is also appreciated. I do ask that your pet be spayed or neutered as I am supportive of that movement. I have however made exceptions on a trial basis. I would be VERY reluctant to board a female in heat!!

Prong or choker collars will be removed during stay. Flat collars re OK.

You may leave a vehicle with keys in the event we need to move it for plowing or mowing, etc.

We also board cats and your dog is welcome to stay with your cat provided you fell there is adequate space for both.

Pup North proved food and water dishes, unless you fell your pet will only eat out of his/her own bowl or has a special needs dish you may leave yours at home (one less item to keep track of)

All dogs in our care have the opportunity to share in doggy playtimes. We spend a lot of time together running and fetching in an effort to 1; alleviate stress and 2; for fun and provide your pet with a vacation of its own. However, if your pet is not so fond of playing with others, that OK ☺ We understand, we make a special effort to provide one on one play time, outdoor time, walks, etc.

Thank you for considering PUP NORTH PET LODGE for your boarding/lodging needs! ☺
